

1. Membuat akun github

The image shows the GitHub login page. At the top is the GitHub logo (Octocat). Below it is the heading "Add an account". The main form is a dark gray box with a white border. It contains a "Username or email address" input field, a "Password" input field, and a "Forgot password?" link. Below the password field is a green "Sign in" button. At the bottom of the form is a link "Sign in with a passkey". Below the form is a link "Want to create an account? Sign out".

Username or email address

Password [Forgot password?](#)

[Sign in](#)

[Sign in with a passkey](#)

[Want to create an account? Sign out](#)

2. Membuat repository

The image shows the GitHub "Create a new repository" page. It has a heading "Create a new repository" and a subheading "A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)". Below this is a note "Required fields are marked with an asterisk (*)". The form has two main sections: "Owner" and "Repository name". The "Owner" section has a dropdown menu with "kiplayo" selected. The "Repository name" section has a text input field with "Proyek-Kelompok-FaceRe" and a green checkmark indicating "Proyek-Kelompok-FaceRecognition is available". Below these is a note "Great repository names are short and memorable. Need inspiration? How about [special-winner](#) ?". The "Description" section has a text input field with "Repository untuk latihan Git dan GitHub Kelompok-FaceRecognition". Below the description is a section for "Initialize this repository with:" with a checked box for "Add a README file" and a link "Learn more about READMEs". At the bottom is a link "Add citation".

Create a new repository

A repository contains all project files, including the revision history. Already have a project repository elsewhere? [Import a repository.](#)

Required fields are marked with an asterisk (*).

Owner * Repository name *

☐ kiplayo / Proyek-Kelompok-FaceRe

Proyek-Kelompok-FaceRecognition is available.

Great repository names are short and memorable. Need inspiration? How about [special-winner](#) ?

Description (optional)

Repository untuk latihan Git dan GitHub Kelompok-FaceRecognition

☒ Public
Anyone on the internet can see this repository. You choose who can commit.

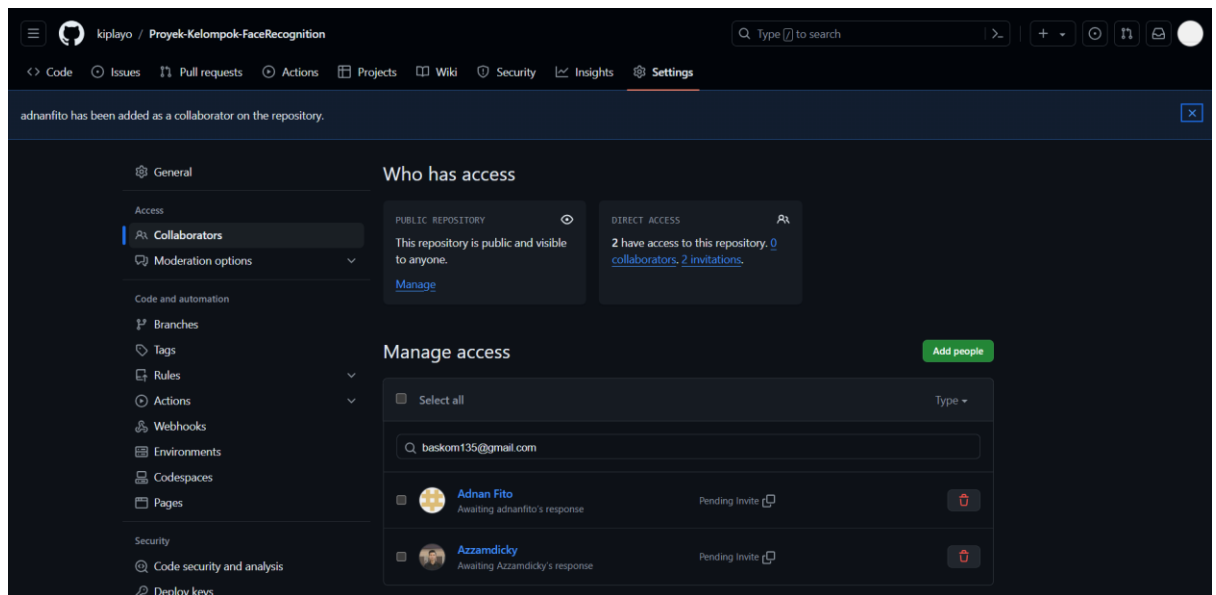

☐ Private
You choose who can see and commit to this repository.

Initialize this repository with:

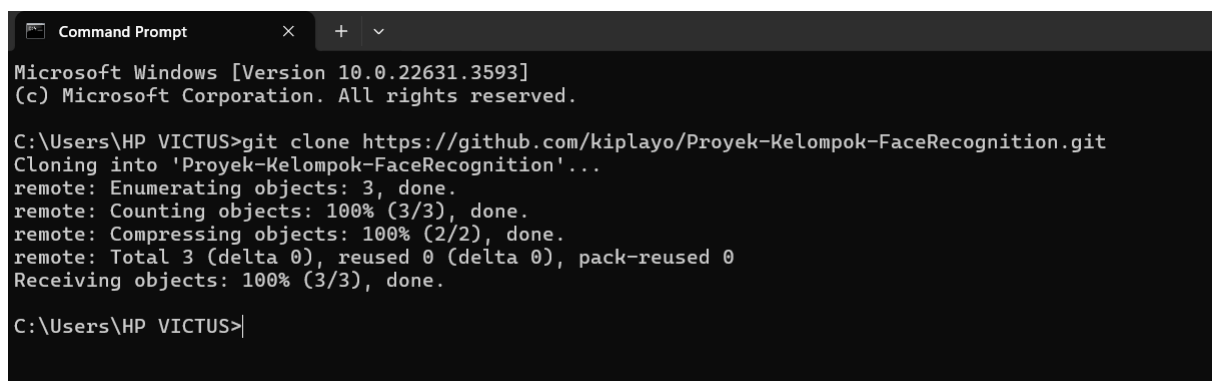

☒ Add a README file
This is where you can write a long description for your project. [Learn more about READMEs.](#)

[Add citation](#)
